We believe that the currency of the country should be issued and controlled by the general government, for the interests of the whole people, that the trusts should be regulated, and that the government should derive its power only from the consent of the governed.

We are proud of the plank of our last territorial convention which is for single statehood of Oklahoma and the Indian Territory, whereby we can have a great and wealthy state and build and equip the necessary state institutions without burdensome taxation.

Recognizing the unsettled conditions existing in our county and the hardships incident upon our older settlers in diminishing their herds to meet the new conditions, as well as the hardships to be endured by those who are now carrying their homes in a new country.
